GUSTAVO ADOLFO RODRIGUEZ

Aprendiz:

CRISTIAN DAVID GIL HERNANDEZ

SERVICIO NACIONAL DE APRENDIZAJE - SENA.

FASE 3- Ejecución

My name is Cristian David Gil Hernandez, and I'm a software analysis and development student at SENA (National Learning Service).

I work as a dental assistant at Unilago, in the northern part of Bogotá. I love to exercise and play a lot of futsal. I consider myself a studious, conscientious, hardworking, and careful person in my daily life. I try to learn English every day since it's the world's language and an important process for the projects I have throughout my life.

I'm currently working on two entrepreneurial ventures, which I know I'll make successful with a lot of effort.

I am a person who loves to travel; discovering new places fascinates me, as does learning new things through speaking in the studio. I don't like to stay still or limit myself to the basics I already understand; I always try to go beyond my current understanding.
